PRIVATE POLICY ASSESSMENT

Analyzing private flood policies is no picnic

With the Biggert-Waters Flood Insurance Reform Act of 2012, private flood insurance is accepted if it equates to the National Flood Insurance Policy coverage standards. However, this acceptance requires lenders to evaluate these policies for compliance with the statutory definition of "private flood insurance" and to ensure they meet minimum requirements. It's no picnic as get it wrong, and regulators can criticize you for accepting non-compliant policies. This burden for many is great as resources may be understandably limited.

Let OSC help you evaluate your private flood policies

At OSC, we help clients understand and apply the evolving private flood policy rules to their portfolios to mitigate risk. Our experienced compliance officer and team actively monitor a range of regulatory sources—including the FHA, OCC, FDIC, CFPB, FNMA, FHLMC, NFIP, and GNMA—to provide sound guidance on your private flood policies.
